

Southeastern Chapter - National Safety Council

2017 Annual Report

Southeastern Chapter

Safety is Teamwork

On behalf of the SCNSC Board of Directors and Staff, we want to take this opportunity to thank you. SCNSC experienced its most successful year yet, and it would not have been possible without you. There are several groups of individuals who have made our growth and expansion a reality.

DONORS

In 2017, we launched our first annual fundraising campaign. This initiative was, and remains, a necessity for our organization to develop new programs and give back to the community. Donor gifts allowed us to support programs such as Alive at 25 scholarships, Run Ella Run, Lexington Medical Center Partners Program (in memory of Megan Preston), the Brain Injury Association of South Carolina and more. We were also able to support and develop new programs like the Skyler Powell Youth Football Camp in Landrum, SC.

MEMBERS & COMMUNITY PARTNERS

SCNSC members and partners are the backbone of our organization. Your commitment to establishing a culture of safety in your organization and your communities makes our work relevant. By using and supporting SCNSC training resources, you afford us the opportunity to achieve our mission, and we thank you for choosing us as your partner in safety. As advocacy partners, your help will allow us to reach all citizens and employees across our region.

INSTRUCTORS

Our Certified Instructors allow us to reach areas across South Carolina and Georgia. You serve as ambassadors of SCNSC through your trainings and connections with community businesses and organizations. We could not be more proud or grateful to have you all on our team.

WHAT NEXT?

Throughout 2017, the SCNSC Board of Directors and Staff worked to establish a strategic plan that will guide the growth of our organization for many years to come. Moving into 2018, we are focused on incorporating this plan into everything we do and each decision we make. We have outlined our goals and initiatives in this report.

Donors, members, instructors, friends - we invite you to join us on this journey. Call us, email us, tweet us. You are an integral part of our team, and we want to hear from you!

Larry Lucas, Board President

Jody Jernigan, Chief Executive Officer

Exhibited at 10 conferences, expos and community events in SC and GA
Presenter / Speaker at 7 conferences and educational events

New Training Programs

BABYSITTING TRAINING COURSE

Launched in summer 2017, the Babysitting Training Course was developed to meet the needs of young adult caregivers. The training covers basic pediatric first-aid and CPR life-saving skills. Curriculum follows the American Academy of Pediatrics Babysitter Lessons and Safety Training.

WORKPLACE VIOLENCE TRAINING COURSE

The Workplace Violence Training Course prepares employers for response to violent incidents, reducing the critical time-period for life-saving decisions. Attendees also learn how to recognize potential workplace violence indicators in order to prevent a volatile situation.

STOP THE BLEED

The program's mission is to provide training and help to ensure prompt access to life-saving, easy-to-use hemorrhage control resources. Working with local school districts, community organizations and business leaders, kits will be placed in identified high traffic or vulnerable locations for quick-and-easy access following an emergency.

Community Programs

Distracted Driving Simulator

Car crashes are the **number one killer of teens** in South Carolina today. SCNSC's newest tool to combat this epidemic is the Distracted Driving Simulator, sponsored by Continental Tire. The simulator enables young teens and adults to drive in a virtual space, while operating the controls of an actual vehicle. The Simulator provides distraction scenarios including texting, phone use, applying cosmetics, distractive passengers and inebriation. SCNSC will travel the simulator to schools, community events and festivals throughout the year.

SKYLER POWELL YOUTH FOOTBALL CAMP

In January 2015 - Jordan Thomas Skyler Powell, better known as Skyler to friends and classmates, left his home on his way to school when he became distracted, lost control of his car and was tragically killed.

SCNSC, in partnership with Landrum High School and local community volunteers and supporters, hosted a free educational program on August 5th, 2017, for Landrum area children. This community program honored the memory of Skyler by providing local children a fun summer program that also touched on the need to prevent distracted driving.

Lexington Medical Center Partners Program

SCNSC is proud to support the Lexington Medical Center Partners Program in memory of Megan Preston. This summer health career awareness program is designed to introduce the health care industry to enthusiastic, bright high school students of Lexington County. Participants complete three rotations through clinical areas, learning about a variety of healthcare careers. SCNSC supports the program in memory of Megan who had a dream of pursuing a career in healthcare but was tragically killed in an automobile crash in 2007.

Gabriella "Ella" Shumate was an exuberant four-year old who instantly stole hearts with her vivacious spirit. Her life was tragically taken on May 16, 2011 when she and her father were hit head on by a drunk driver. The Gabriella Shumate Memorial Foundation was created to honor Ella's life, bring joy to other children and promote safe driving and the prevention of unnecessary deaths. The SCNSC was honored to partner with the Foundation in support of the Run Ella Run Memorial 5k - a running/walking event held June 3, 2017.

In 2017, SCNSC proudly supported the good work of the Brain Injury Association of South Carolina. BIASC is a statewide nonprofit developed by persons with brain injury, their families, and concerned professionals in an effort to provide information and support to those who have experienced a brain injury. Their mission is to create a better future through brain injury prevention, research, education and advocacy.

SCNSC Vision 2027

Our Mission

PROMOTING CHANGE TO ELIMINATE PREVENTABLE INJURIES, DEATH AND LOSS IN THE COMMUNITIES WE SERVE

Our Vision

IMPROVING THE QUALITY OF LIVES THROUGH SAFETY

Core Values

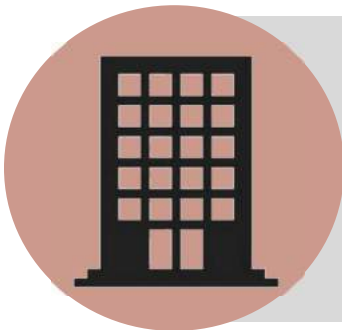

INTEGRITY | ADVOCACY | INNOVATION | PASSION | TEAMWORK

Priorities | Focus | Intent

ELIMINATING INJURY AND DEATH ON THE ROADWAYS

The Council will aggressively work to achieve the lowest rates of motor vehicle incidents resulting in injury, death and loss throughout the southeast region. We will deliver effective and widespread programs to help drivers develop the defensive skills and awareness they need to avoid motor vehicle collisions. We will seek out community partners to help advocate and implement roadway safety programs and initiatives, resulting in our region having the lowest rate of motor vehicle collisions in the country.

CREATING A CULTURE OF SAFETY & HEALTH IN THE WORKPLACE

As a Council, we are committed to an expanded membership base and increasing participation in workplace training, for the purpose of establishing safe and healthy work environments. Developing robust networks of professionals dedicated to the health and safety of their employees, we will provide leadership, resources, support and delivery of services to ensure safety at work.

BUILDING SAFE & HEALTHY HOMES & COMMUNITIES

Eliminating preventable injuries and deaths in homes and communities will be a major priority for the Council over the next ten years. The Council will develop partnerships with kindred organizations, individuals and companies to promote, deliver and advocate home and community safety. Through a safe community initiative, the Council will form Advocacy Groups focused on safety concerns and issues facing their communities.

Donors

The Southeastern Chapter - National Safety Council wishes to express its sincere gratitude to the following individuals, businesses and organizations for demonstrating their financial commitment to safety and furthering the efforts of the Council last fiscal year by investing in its mission and vision.
